Subject Index

a

- Aberdeen-Angus cattle . . 13
- Abomasal feeding of ruminants . . 174
- Acaricides . . 84
 in tick control . . 17
 use of dips against bovine
 streptothricosis . . 173
- Adoxophyes reticulana* . . 84
- Aerial seeding, seed germination and . . 133
- Afghanistan, rinderpest in . . 2
- Africa,
 food production in developing
 regions . . 180
 need for rural broadcasting . . 65
- Ageing process in animals,
 researches on . . 73
- Agricultural Advisory Council,
 soil conservation . . 1
- Agricultural credit . . 43,150
- Agricultural development,
 overseas . . 135
 review of priorities in . . 6
- Agricultural Development
 and Advisory Service, UK . . 43
- Agricultural Development Association,
 UK . . 46
- Agricultural implements,
 testing, Roumania . . 19,20
- Agricultural levy system, UK . . 48
- Agricultural machinery,
 Stoneleigh exhibits . . 130
- Agricultural Mortgage Corporation . . 150,151
- Agricultural policy,
 Australia . . 49,117
 Continental Europe . . 47,116
 Monsoon Asia . . 50,118
 North America . . 47,115
 United Kingdom . . 48,116
- Agricultural production . . 1
- statistical data . . 179
 world systems of . . 12 BR
- Agricultural research,
 organisation in Roumania . . 19
 using models in . . 26
- Agricultural shows,
 future of, in Europe . . 45
- Agriculture,
 and the countryside . . 22
 capital and finance in . . 67(figs.)
 financing in developing countries . . 152
- Agropyron repens* . . 1
- Agrostis* spp. . . 1
- Air cushion vehicles,
 agricultural uses . . 81,83
- Airfield runway,
 polypropylene mesh laid on . . 5
- Alfalfa caterpillar . . 85
- Alfalfa weevil . . 85
- Algae, control of fresh water species . . 132
- Alopecurus myosuroides* . . 1,31,32
- Ametryn,
 control of weeds in fishing waters
 with . . 132
- Amino-acids of microbial protein . . 174
- Anaemias responsive to copper . . 177
- Anaplasmosis symptoms in cattle . . 16
- Andropogon gayanus* . . 93
- Angus cattle, popularity in USA . . 161
- Anhydrous ammonia, fertiliser use . . 3
- Animal behaviour . . 73
- Animal breeding,
 beef cattle for Europe . . 13
 crossbred cattle for beef production,
 USA . . 161
 establishment of 'minimal disease'
 herds . . 61
 Friesian-White Fulani cross . . 172
 implantation of eggs in uterus . . 61
 Marbach national stud, West Germany . . 65
- Animal diseases
 in wildlife . . 131
 losses from, UK . . 129
- Animal fats,
 polyunsaturated levels in . . 4
- Animal health,
 demonstrations at Stoneleigh . . 129
- Animal nutrition, Rowett researches . . 174
- Aphids,
 control by Phosdrin . . 84
 scanning electron micrographs
 of . . 94,95 (figs.)
- Aphis gossypii* . . 86
- Apple,
 pollination study . . 37 (figs.)
 production in Rio Negro Valley,
 Argentina . . 34
- Apple leafroller, control by Phosdrin . . 84
- Aquatic weeds, 3rd Symposium, 1971 . . 132
- Archips podana* . . 84
- Argali sheep . . 158
- Argentina, apple growing in . . 34 (figs.)
- Argentine Fruit Distributors . . 34
- Argyrotaenia pulchellana* . . 84
- Argyrotaenia velutinana* . . 84
- Association of Agriculture,
 Conference, 1970 . . 22
- Atomiser (Micronair AU 300) . . 144,145 (figs.)
- Australia,
 agricultural policy . . 49,117
 honey industry . . 3
 irrigation projects . . 8 (figs.), 152
 research on dung beetles . . 134
 rural reconstruction . . 49

source of farm capital . . . 151
 wool assessment, objective measurements . . . 64

Australia, Wet or Dry? (Davidson) . . 10

Australian Wool Board . . . 64

Australian Wool Commission, . . . 49

Austria, value of farmland in . . . 68

Auxins,
 secretion by soil microorganisms . . . 99

Avena fatua . . . 1,139 (figs.)

Avena ludoviciana
 in dormancy experiments . . . 64

b

Babesiosis symptoms in cattle . . 16

Bacterial diseases . . . 170 (figs.)

Bacterial fertilisers . . . 99

Banana, nematode attack . . . 148 (figs.)
 nematode control with Nemagon . . . 147

Barban, use in wild oat control . . 141

Barley, chemically-induced mutant . . 104
 mutation breeding . . . 101
 net energy per ha provided by . . . 175
 phosphorus nutrition, microorganisms and . . . 99,100
 production, 1970 . . . 180
 root system measurements . . . 140

Battery hens, husbandry aspects . . 107

Beans, weed control by Bladex in . . 33

Beef cattle,
 breeds and systems in Europe . . . 13 (figs.)
 in USA . . . 159
 brood cow herds in USA . . . 159
 roots-barley rations for . . . 175
 slaughter weight, USA . . . 160

Beef measles in Kenya . . . 164

Beef production,
 dairy beef from steers fed swede-barley ration . . . 175
 intensification of . . . 175
 Kenya project . . . 162
 new beef unit at N.A.C. . . . 129
 single suckler cow in . . . 15

Beefmaster cattle . . . 161

Beekeeping,
 forest-based migratory system . . . 3

Belgium, steer feeding trials . . . 175
 value of farmland in . . . 67,68

Belonolaimus longicaudatus . . . 146

Beneficial insects,
 organophosphorus compounds and . . . 85

Biochemistry, molecular,
 in the life sciences . . . 153

Biological control,
 nematode experiments . . . 147
 parasitic flies by dung beetles . . . 134
 predators raised on interplanted crop . . . 132

Biological systems,
 model representation of . . . 26

Biology, molecular . . . 153

Blackgrass (*Alopecurus myosuroides*) . . 1
 control by Bladex . . . 31,32

Bladex, properties and toxicology . . 31

Bobby veal . . . 160

Boll weevil, control with Phosdrin . . 84

Bollworm, control with Phosdrin . . 84

Book review
 Farming systems of the world,
 by Duckham and Masefield . . . 12

Boophilus decoloratus . . . 17

Boophilus microplus . . . 16
 survival time of larvae . . . 17

Borden Microbiological Laboratory . . 66

Bovine streptothricosis . . . 170 (fig.)
 prospects for control . . . 172

Braford cattle . . . 161

Brahman cattle cross breeds . . . 161

Bramley's Seedling,
 pollination experiments . . . 38

Brangus cattle . . . 161

Brazil, pesticides seminar . . . 62
 spread of coffee rust in . . . 142

British Standard BS 52660 for colour finishes . . . 23,25

Broplene Land Mesh . . . 5

Bucharest,
 Central Institute for Mechanisation Research . . . 20

Buffalo fly, biological control . . . 134

Bulrush millet,
 cross with elephant grass . . . 93

Bush fly, biological control . . . 134

C

Cadillac system of vine growing . . . 132

Calves,
 raising on dry plains of Colorado . . . 160 (fig.)
 weaning to feedlot . . . 160

Canada, agricultural policy . . . 47,115
 infestation of wheatlands by wild oat . . . 139

Cancer,
 veterinary science to aid study of . . . 72

Canning, new potatoes . . . 90 (figs.)

Capital and Finance in Agriculture (OECD) . . . 67,152

Capital investment,
 in agriculture, outside sources . . . 150
 in farmland and buildings . . . 150
 in irrigation schemes, Australia . . . 8
 in Rapid Adjustment farms, TVA . . . 41

Carbamates, predator-insect balance and . . 85

Carcass quality, beef cattle . . . 161

Castor bean, mutation breeding . . . 103

Cattle, beef breeds . . . 14,159
 dipping tank for . . . 16 (fig.)
 estimated loss from tick infestation . . 16
 falling disease in . . . 177
 rarer breeds, populations in UK . . . 157
 streptothricosis in . . . 170 (figs.)

Cattle plague . . . 2

Cattle ticks, life cycle and control . . . 16

Cauliflower, production of mini- . . . 4

Cellular peroxidases,
 effect of ethylene on . . . 64

Centre for Overseas Pest Research (COPR) . . . 130

Ceratocystis ulmi . . . 3

Cereals, combine harvesting, costs . . . 79,80 (fig.)
 durum and 'forced' grains, Europe . . . 30
 high-yielding varieties, economics of . . . 50
 infestation with wild oat, Canada . . . 139,140
 short-strawed mutants . . . 103
 world trade, FAO report . . . 179, 180

Ceruloplasmin . . . 177

Cessna 185 . . . 146

Ceylon, tea production . . . 118

Charolais cattle,
 breed developed in USA . . . 162
 economic attributes of . . . 14 (fig.)

Chelating agents in plant nutrition . . . 99
 effect of microorganisms on . . . 100

Chemical mutagens . . . 104

China, food production in . . . 118
 pig population . . . 50,118
 population . . . 118

Chlorfenvinphos . . . 17,18

Chlorinated camphene,
 toxicity to cattle ticks . . . 17

Chloris gayana . . . 167

Chlorpropham, as growth inhibitor . . . 175

Chrysanthemum,
 radiation-induced mutants . . . 102 (figs.)

Chrysanthemum segetum . . . 33

CIPC (Chlorpropham) . . . 175

Cirsium arvense . . . 1

Citrus, nematode populations of root systems . . . 148

Clovers, pasture species, Kenya . . . 167

Coconut, Asian Coconut Community . . 118

Coconut oil meal, for pigs in Caribbean . . 114

Coffee production, 1970 . . . 180

Coffee rust, cause and symptoms . . . 142
 established in Brazil . . . 142
 Rust Research Centre, Portugal . . . 142

Coimbatore Agricultural College,
 aerial spraying school at . . . 62

Colbred sheep . . . 156

Colias eurytheme . . . 85

Colour and the landscape . . . 23
 building materials and . . . 23

Coltsfoot . . . 1

Combine harvesting,
 developments in . . . 78 (fig.), 80 (fig.)
 production and use of harvesters, Roumania . . . 21

Commelin elm . . . 4

Computer simulation techniques for agricultural systems . . . 26

Conservation,
 of rarer domestic animal breeds . . . 156
 of soil . . . 1
 UN Conference on the Human Environment . . . 136

Copper in animal nutrition . . . 176

deficiency in grazing animals . . 176 (figs.)
toxicity in ruminants and
pigs . . 176,178 (fig.)

Coring machine for wool bales,
automatic . . 65

Costs,
apple production, Argentina . . 34
capital costs of tractor . . 75
combine harvesting of cereals . . 79
farm shoots, and returns from . . 97
vineyard planting, France . . 113

Cotton,
interplanting with insect-predator
host . . 132
spraying campaign, India . . 62

Cotton pests, biological control . . 132

Couch grass . . 1

Council of Industrial Design,
colour finishes . . 23

Countryside, changes in . . 22

Cow dung,
destruction on soil by dung beetles . . 135

Cox's Orange Pippin,
pollination experiments on . . 37 (figs.)

Creep feeding of calves . . 159

Creeping thistle . . 1

Crop losses, from nematode attack . . 146
from wild oat infestation . . 140

Ctenopharyngodon idella . . 132

Cynodon dactylon . . 169

Cysticercus bovis . . 164

d

Dahlia, mutation breeding . . 104

Dahomey, rice growing project . . 66

Dairy cow, ageing process in . . 73
beef production from . . 160
rations, 'protected-fat' supplements
in . . 4

D-D, trials in potato soils, Madras . . 63

DDT, ecological aspect . . 137

Defoliant for potato crops . . 89

Denmark, agricultural promotion plans . . 46
value of farmland in . . 68

Dental caries,
association with Mo-deficiency . . 100

Dermatophilus congolensis . . 170

Desiccants for potato haulm . . 92

Desmodium spp. . . 167

Deutsche Landwirtschaft Gesellschaft,
show ground . . 45 (fig.)

Diallate, in control of wild oat . . 141

Die-back in citrus attacked by
nematode . . 148 (fig.)

Dieldrin,
airspraying locust hoppers with . . 143

Digestibility of swedes fed to steers . . 175

Digitaria sanguinalis, control by Bladex . . 32

Dipping tank, construction and

management . . 16 (fig.), 18

Diquat, use in potato growing . . 89

Ditylenchus spp. . . 146

Docks (*Rumex* spp.) . . 1

Dormancy development, in seeds . . 64

Draught cattle,
bovine streptothricosis in . . 172

Dried grass, net energy per ha provided
by . . 175

Drift, ULV spray techniques and . . 144

Dryland farming, efficiency of . . 10,11

Dung beetles,
release of exotic species in Australia . . 134

Durham cattle breed . . 13

Durum grains, production,
EEC countries . . 30
radiation-induced wheat mutants . . 103

Dusting, air cushion machine for . . 82

Dutch elm disease . . 3

Dwarf wheats . . 103

e

East Coast fever . . 16

Ecological research, using models in . . 27

Ecuador, FAO project in . . 6

Education of urban children in country
ways . . 65

Egg quality,
pre-laying behaviour of hens and . . 105

Egyptian alfalfa weevil, control . . 85,86

Elephant grass,
forage value for W. Africa . . 93

Electron microscope,
applications of SEM to biological
surfaces . . 94 (figs.)

Elgeyo-Marakwet farm, Kenya . . 168 (fig.)

Elm disease, spread in Britain . . 3

Emerald Irrigation scheme, Queensland . . 11

Engine suspension in new tractor designs . . 76

Entolasia imbricata, protein value . . 93

Environment,
potential pollutants of . . 136

Enzymes in plants, effect of ethylene on . . 64

Ergonomic problems,
combine harvesters . . 80
in tractor design . . 74,75

Ethylene, plant growth inhibition by . . 64

Eucalyptus spp., nectar-bearing . . 3

European Economic Community,
agricultural policies . . 47,116
and North American trade . . 47,48,115
market for durum grains in . . 30
negotiations for enlargement of . . 47

Eurotechnic exhibit, Stoneleigh . . 130

Eutrophication, causes and occurrence of . . 137

Evapotranspiration,
actual and potential . . 12 BR

f

Falling disease of cattle . . 177

Fan-leaf disease of vine . . 149

Far East, agricultural production, 1970 . . 180

Farm, enlargement, land prices and . . 70
planning and management of shoots
on . . 96,97 (fig.)
Rapid Adjustment, Tennessee Valley
Valley . . 40 (fig.)

Farm buildings, assessing value of . . 67
colour of factory-made materials for . . 23

Farm management . . 40
business techniques in . . 43
First International Conference,
Warwick . . 131
survey of UK farm managers . . 44

Farm Management Association,
UK . . 43,44,131

Farm Planning Manual (TVA) . . 42

Farm real estate,
prices in different countries . . 67

Farming,
decline of income standards in EEC . . 116
modern methods and the soil . . 1
provision for game as a crop . . 96
systems, world . . 12 BR

Farming industry,
in Australia . . 49,117
land values . . 67
outside sources of investment in . . 150

Farmyard manure, ecological aspects . . 137
wastage in absence of dung beetles . . 134

Faun potato harvester . . 88 (fig.)

Feeding-stuffs, for beef cattle . . 14,159
for weaned calves . . 160
for Zebu cattle, Kenya . . 163,164
mixer-feeder wagon . . 163 (fig.), 165
price increases, world . . 47,48

Feedlot, development for cattle,
Kenya . . 162,164
output of cattle finished in . . 160
size for beef cattle, USA . . 160

Fenthion, airspray against tsetse . . 143

Fertilisers,
for vineyards, France . . 113
for wheat, wild oat infestation and . . 141
use in Roumania . . 19

Fibre crops, production, 1970 . . 180

Finland, value of farmland in . . 68

Fish,
herbivorous, in pond weed control . . 132

Fisheries, world trade . . 179

Fishmeal, feeding value . . 118

Fishpond development . . 96

Flax, wild oat infestation . . 141

Flower fertility, research on . . 39

Food Aid Convention . . 115

Food and Agriculture Organisation . . 118
agricultural development priorities . . 6
broadcasting workshops . . 65
durum wheat mutants . . 103
Kenya's Zebu feedlot . . 162,163
pesticide seminar, Sao Paulo . . 62
report on the State of Food and
Agriculture . . 48,179
research programme on rabies . . 63
survey of animal diseases . . 176
study groups on animal genetic
resources . . 156

Food production . . 12 BR,179
Asian countries . . 118
from game species . . 96

Forage crops,
research in West Africa . . 93
tropical grasses as . . 167

Forestry, FAO report, 1970 . . 179

Fortrol . . 31,33

Fowl pest epidemic in UK . . 2

Fox, as rabies virus vector . . 63

France,
agricultural production co-
operatives . . 109,131
value of farmland in . . 68
vineyard management . . 132
wine-producing regions . . 108 (map)

Friesian cattle,
cross with Hereford . . 15 (fig.)
with White Fulani . . 172

Fruit, industry of Argentina . . 34
pollination research, Long
Ashton . . 37 (figs.)
surplus production, Western
Europe . . 178

Fruit and Vegetable Preservation
Research Association,
potato canning unit . . 91 (fig.),92

Fruit set in apples . . 37,38

Fundulea research station, Roumania . . 21

Fungi, soil, association with nematode
lesions . . 148

Fungicides, use in potato growing, UK . . 89
value against coffee rust . . 142

Fungus diseases . . 3
spread of coffee rust . . 142

Fusarium oxysporum f. cubense . . 147

g

Game animals, diseases of . . 132

Genetics, mutation breeding of plants . . 101
preserving sources of animal material . . 155
triplet base code in the nucleic acids . . 153

Germination, aerial-seeded species . . 133
wild oat seed . . 139

Ghana, broadcasting workshop . . 65

Ghent,
Institute of Animal Nutrition . . 175

Gibberellins,
secretion by soil microorganisms . . 99

Gloucester Old Spot . . 157 (fig.)

Grading potatoes on the farm . . 89 (fig.)

Grain, drying equipment for . . 79
durum . . 30, 103
loss in combining . . 79,80

Grass carp in control of aquatic weeds . . 132

Grass species, forage value for W.Africa . . 93
indigenous to Kenya . . 167
weeds . . 1,2
control by Bladex . . 32

Grassland,
establishment after aerial seeding . . 133
improvement, Kenya . . 163,166 (figs.)
irrigated area, Australia . . 9

ley in semi-intensive beef
production . . 15
natural range in Nebraska . . 161 (fig.)
productivity and soil moisture,
model study . . 27 (fig.)
runway, reinforcement with
polypropylene mesh . . 5
soil structure . . 1
spelling, to control ticks . . 17

Grassland Research Institute, Hurley . . 26

Great Ouse River Authority . . 61

Greece, value of farmland in . . 68

'Green revolution', Asia . . 12,18,50

Greenleaf Tabasco pepper . . 133

Growth regulators,
biochemical research on . . 154
inhibition of regrowth in stored
roots with . . 175

Gryllus pennsylvanicus . . 86

Guinea grass, forage value . . 93

h

Haemolytic crisis in ruminants . . 178

Harvester, developments in combine . . 78
for mini-caulflowers . . 4
mechanical, for grapes . . 113
for potatoes for canning . . 88,92

Harvesting grapes in Saumurois,
France . . 109 (fig.)

Haulm destruction in potato . . 89,92

Heart disease,
veterinary science to aid study of . . 72

Heartwater in calves . . 16

Hedgerows and spinneys,
planting for farm game . . 97

Helicotylenchus multicinctus . . 147

Heliothis spp. . . 84

Heliothis zea . . 84

Hemileia vastatrix . . 142

Hens, audiospectrograph of nesting call . . 106
pre-laying behaviour of . . 105

Herbicides . . 1,31
control of aquatic weeds with . . 132
of wild oat with . . 141
ecological aspect . . 137

Hereford cattle,
calves on dry plains, Colorado . . 160
cross with Friesian . . 15 (fig.)
economic attributes . . 13 (fig.)
importation into northern Japan . . 50
popularity in USA . . 161

Heterodera rostochiensis . . 63,147

Hides,
loss from bovine streptothricosis . . 172

Hippodamia convergens . . 85

Honey production,
migratory bee-keeping . . 3

Hops,
spraying with Phosdrin . . 85 (fig.)

Horses, Marbach stud . . 65

Hovercraft,
potential for, in agriculture . . 81
skirt requirement for . . 83

Human nutrition, dietary fats . . 4

Hurley, model study of grass
productivity . . 17 (figs.)

Hyalomma spp. . . 17

Hybridisation, animal breeding . . 156
conventional compared with
mutation breeding . . 103

Hypera brunneipennis . . 85

Hypera postica . . 85

i

Ibadan, University of . . 93
work on bovine streptothricosis . . 173

India, crop protection in Madras . . 62
dairy development in . . 50
egg production in . . 50
population . . 118
tea production . . 118

Indian agriculture,
National Commission of enquiry . . 50

Indonesia, trade developments . . 118

Insecticides . . 84
comparative toxicities in soil . . 86
selection of application techniques
for . . 146
ULV spraying . . 143
use in potato growing, UK . . 89

International Atomic Energy Authority . . 103

International Grains Arrangement . . 47

International Wheat Agreement, 1971 . . 115

Ion etching process . . 95

Ipomoea batata . . 168

Iran, rinderpest in . . 2

Iron metabolism in Cu-deficient pig . . 179

Irrigation,
needs for England and Wales . . 27
Nemagon application in
water . . 147,149 (fig.)
of grass sward, model study . . 28 (figs.)
of potato . . 89
projects, Australia . . 8 (figs.),9,152

Italy, value of farmland in . . 68

Ivory Coast, pasture productivity . . 93

j

Jamaica, pig feeding with copra meal . . 114

Japan, agricultural problems of . . 118
value of farmland in . . 67,68

John Innes research on mutation
breeding . . 104

Joint stock finance in agriculture . . 152

k

Kentucky Farm Management
Association . . 42

Kenya, beef production . . 162
control of coffee leaf rust . . 142
pasture improvement . . 166 (figs.)

Kenya Beef Industry Development Project
Nakuru . . 163

Kenya Seed Company,
cleaning plant at Kitale . . 93
